

**SEEFORT**

**Thursday 8.5.2024. - Day 1**

**Hall 1 - KNEE**

Time	Lecture	Session	Leader	Presenter
9:00–9:15	Dry CO2 Usage during ligament and cartilage surgery	ACL 1	Goran Vrgoč	Umer Butt
9:15–9:30	How does a surgeon's experience affect surgical approach and outcome in ACLR			Anders Stalman
9:30–9:45	ACLR with meniscus tear			Goran Vrgoč
9:45–10:00	Lateral tenodesis - a blast from the past			Jakob Merkač
10:00–10:15	ACLR with medial or lateral instability			Tomislav Anić
10:15–10:45	Discussion			
10:45–11:00	Coffee break			
11:00–11:15	ACL revision with Quad tendon	ACL 2	Umer Butt	David Martinčić
11:15–11:30	Results of ACLR with or without ALL			Saša Janković
11:30–11:45	Risk for subsequent surgery after primary ACLR			Anders Stalman
11:45–12:00	Do we need biology in ACL reconstruction?			Damir Hudetz
12:00–12:15	ACL revision surgery			Umer Butt
12:15–12:45	Discussion			
12:45–13:30	Lunch/Workshop			
13:30–13:45	Unicondylar knee replacement... finally!	Knee Replacement	Boris Žulj	Boris Žulj
13:45–14:00	Robotic assisted UKA			Ali Albelooshi
14:00–14:15	Update on CPAK and Utilization			Ali Albelooshi

**SEEFORT**

**Thursday 8.5.2024. - Day 1**

Time	Lecture	Session	Leader	Presenter
14:15–14:30	Velys TKA TBD	Knee Replacement	Boris Žulj	Aviram Gold
14:30–14:45	Rosa TKA TBD			
14:45–15:15	Discussion			
15:15–15:30 Coffee break				
15:30-15:35	Introduction	Cartilage	Alan Ivković	Alan Ivković
15:35–15:50	Basic and advanced MRI for cartilage			Pavol Szomolanyi
15:50–16:05	Nose2Knee from clinicians perspective			Marcus Mumme
16:05–16:20	Minced autologous cartilage implantation			Alan Ivković
16:20–16:35	Current status of ACI			Kristian Samuelsson
16:35–16:50	Three-dimensional, Scaffold-Free, Autologous Chondrocyte Transplantation			Gianluca Vadala
16:50–17:15	Discussion			
17:15–17:30 Coffee break				
17:30-17:35	Introduction	Knee OA	Damir Hudetz	Damir Hudetz
17:35–17:50	Biomarkers for osteoarthritis: current status and future prospects			Ali Mobasheri
17:50–18:05	Expanded adipose-derived stem cells for the treatment of OA			Ulrich Nöth
18:05–18:20	Orthobiologics for knee OA			Pawel Skowronek
18:20–18:35	Physical therapy for patients with knee OA: use of advanced web-based platforms			Damir Hudetz
18:35–19:00	Discussion			

**SEEFORT**

**Thursday 8.5.2024. - Day 1**

**Hall 2 - SPINE**

Time	Lecture	Session	Leader	Presenter
9:00–9:15	Advances in Spinal Cord injury	Advances in Spine	Stjepan Dokuzović	Dr. Ivandić
9:15–9:30	Spinal Balance and the Kinetic Chain			Dr. Španić
9:30–9:45	Genetics in Spinal Disorders			Dr. B. Bošnjak
9:45–10:00	Spinal Research and Future directions			Dr. Pavelić
10:00–10:15	Physiotherapy for Spine Patients			Dr. Klarić
10:15–10:45	Discussion			
10:45–11:00	Coffee break			
11:00–11:15	Uniportal Spinal Endoscopy	Minimally Invasive Spine Surgery	Karlo Houra & Gianluca Vadala	Karlo Houra
11:15–11:30	Biportal Spinal Endoscopy			Ivica Frančisković
11:30–11:45	Practice Preference of Revision Surgery for Recurent Lumbar Disc Herniation			Stipe Corluka
11:45–12:00	Lumbar Spinal Stenosis			Goran Lakičević
12:00–12:15	Navigation in Spine Surgery: How to get the Best Accuracy			Gianluca Vadala
12:15–12:45	Discussion			
12:45–13:30	Lunch/Workshop			
13:30–13:45	Motion Preservation in the treatment of multi-level cervical degenerative disease	Cervical Pathologies	Stipe Corluka & Dominik Romic	Matjaz Vorsic
13:45–14:00	Cervical Spinal Stenosis and Myelopathy			Dominik Romic
14:00–14:15	C0-C2 surgery			Petar Marcinkovic

# SEEFORT

## Thursday 8.5.2024. - Day 1

Time	Lecture	Session	Leader	Presenter
14:15–14:30	Understanding Risks in Cervical Spine Surgery	Cervical Pathologies	Stipe Corluka & Dominik Romic	Stipe Corluka
14:30–14:45	Case Discussion			All
14:45–15:15	Discussion			
15:15–15:30 Coffee break				
15:30–15:45	Adolescent Spinal Deformities	Spinal Deformities	Kresimir Sasa Đurić & Stejpan Dokuzovic	Mislav Cimic
15:45–16:00	Degenerative Lumbar Scoliosis and Approaches			Stjepan Dokuzovic
16:00–16:15	Adult Spinal Deformities			Kresimir Sasa Duric
16:15–16:30	Degenerative Lumbar Spondylolisthesis			Nenad Kudelic
16:30–16:45	Case Discussion			All
16:45–17:15	Discussion			
17:15–17:30 Coffee break				
17:30–17:45	Fractures of the Thoracolumbar Spine	Trauma & Tumours	Darko Perovic & Marjan Rozankovic	Miso Krsticevic
17:45–18:00	Intradural Tuors			Marjan Rozankovic
18:00–18:15	Surgical treatment of Primary Spinal Tumors			Kresimir Sasa Duric
18:15–18:30	Surgical treatment of Metastatic Spinal Tumors			Ana Gavranic
18:30–19:00	Discussion			

**SEEFORT**

**Friday 9.5.2024. - Day 2**

**Hall 1 - HIP**

Time	Lecture	Session	Leader	Presenter
9:00–9:15	Not so frequent pedatric hip pathology - surgical solutions	Pediatric Hip Disorders	Darko Antičević	Darko Antičević
9:15–9:30	The fascinating world of proximal femur and pelvic osteotomies in pediatric hip disorders			Borut Kovačić
9:30–9:45	Effect of SCFE treatment on development of femoroacetabular impingement (FAI) syndrome, osteoarthritis and patient reported outcome			Andraž Kraševac
9:45–10:00	SCFE - modified Dunn procedure - midterm results			Paulo Rego
10:00–10:15	Femoral head reduction osteotomies + Femoral neck osteotomy - video technique			Paulo Rego
10:15-10:30	Navigation in hip preservation surgery - why and how			Klemen Stražar
10:30–11:00	Discussion			
11:00–11:15	Coffee break			
11:15–11:30	When to do hip arthroscopy	Hip Arthroscopy 1	Tomislav Smoljanović	Tomislav Čengić
11:30–11:45	Comparing hip joint MRI to surgical findings - when do you need to prepare for a labral reconstruction or cartilage transplantation			Itamar Botser
11:45–12:00	Technical factors in getting good outcomes in FAI surgery			Michael Dienst
12:00–12:15	Hip Dysplasia - Are there indications for arthroscopy			Michael Dienst
12:15–12:45	Discussion			
12:45–13:30	Lunch/Workshop			
13:30–13:45	MR imaging of the hip: an update and best practices	Hip Arthroscopy 2	Michael Dienst	Eugen Divjak
13:45–14:00	Os acetabulare			Tomislav Smoljanović
14:00–14:15	Endoscopic repair of the full thickness proximal hamstrings tears - US guided technique			Itamar Botser
14:15–14:30	Looking back and forward in hip preservation surgery - what is the next frontier			Josip Nenad Čakić

**SEEFORT**

**Friday 9.5.2024. - Day 2**

Time	Lecture	Session	Leader	Presenter
14:30–15:00	Discussion			
15:00–15:15	Coffee break			
15:15–15:30	Quicker, better... shorter	Hip Arthroplasty 1	Mike Tengrootenhuysen	Mike Tengrootenhuysen
15:30–15:45	Day care arthroplasty			Mike Tengrootenhuysen
15:45–16:00	DAA AMIS - 18 years later			Josip Nenad Čakić
16:00–16:15	Challenges and complications along my learning curve in DAA			Marin Miljak
16:15–16:30	Why posterior approach still rocks			Tomislav Smoljano
16:30–17:00	Discussion			
17:00–17:15	Coffee break			
17:15–17:30	Treatment of infected type B periprosthetic femoral fractures - hip arthroplasty	Hip Arthroplasty 2	Slaven Babić	Slaven Babić
17:30–17:45	Individual Approach to the Acetabular Fracture - 3D planning and printing			Matevž Tomažević
17:45–18:00	Trabecular metal acetabular revision system to address massive defect in revision THA: our experience			Tomislav Prpić
18:00–18:15	Complex hip reconstructions: tumors and revisions			Marko Bergovec
18:15–18:30	Management of Acetabular Bone Loss in Hip Revision Arthroplasty - ou			Vuk Vučić
18:30–19:00	Discussion			

**SEEFORT**

**Friday 9.5.2024. - Day 2**

**Hall 2 - SHOULDER & ELBOW**

Time	Lecture	Session	Leader	Presenter
9:00–9:15	PASTA lesion - My Approach			D.Matek
9:15–9:30	Single vs double row - are the results the same?			M. Grle
9:30–9:45	Management of re-tears after rotator cuff reconstruction		B. Poberaj (SLO)	B. Poberaj
9:45–10:00	Treatment of Massive Irreparable Posterosuperior Rotator Cuff Tears			B. Marjanovič
10:00–10:15	Longe head of biceps pathology - when and what to do?			V. Stevanović
10:15–10:30	Management of Cartilage Injuries of the Shoulder			M. Nabergoj
10:30-10:45	When to use a dermal patch in RC repair?			David Hollo
10:45–11:00	Coffee break			
11:00–11:15	AC Joint Instability - How to restore horizontal and vertical stability			N. Matejčić
11:15–11:30	Revision of failed ACJ stabilisation			Ladislav Kovačič
11:30–11:45	How best to predict when a soft tissue stabilization will fail?		Ali Ersen (TUR)	Jakub Stefaniak
11:45–12:00	DAS stabilisation procedure When and how?			Tadija Petrović
12:00–12:15	How I perform Latarjet and what to do if failed			Ali Ersen
12:15–12:30	Bone block procedures			Mustafa Ozkan
12:30-12:45	Postero- superior pain in overhead athletes- when to do surgery			B. Poberaj
12:45–13:30	Lunch/Workshop			
13:30–13:45	Proximal humerus fractures - my approach			Ladislav Kovačič
13:45–14:00	Isolated great tubercule fx.-when and how to operate			O. Başçi

**SEEFORT**

**Friday 9.5.2024. - Day 2**

Time	Lecture	Session	Presenter	Leader
14:00–14:15	Arthroscopic fractures fixation around the shoulder		M. Zumstein (CH)	B. Marjanović
14:15–14:30	Stemless anatomic and reverse			M. Nabergoj
14:30–14:45	Anatomic TSA-my indications, tips and tricks			M. Zumstein
14:45–15:00	Reverse TSA- What I take in count for preoperative planning			M. Zumstein
15:00–15:15	3D printed scapula after tumor resections			M. Bergovec
15:15–15:30	Coffee break			
15:30–15:45	Distal biceps injuries and repair		D. Blonna (ITA)	T. Petrović
15:45–16:00	Triceps tendon injuries- surgery is always necessary?			D. Starcevic
16:00–16:15	Medial instability chronic			Taner Güneş
16:15–16:30	Lateral elbow pain- what can it be?			D. Blonna
16:30–16:45	Chronic Lateral elbow instability- treatment options			D. Starčević
16:45–17:00	Entrapement syndrome around elbow -diagnose and treatment			V. Stevanović
17:00–17:15	Endoprosthetic elbow reconstruction after tumor resection			M. Bergovac
17:15–17:30	Coffee break			
17:30–17:45	Radial Head fractures: from screws to head replacement		V. Stevanović (SRB)	M. Matoic
17:45–18:00	Elbow fractures dislocation			G. Huri
18:00–18:15	Distal humerus fx- decision making			D. Blonna
18:15–18:30	How to deal with stiffness after surgery			Taner Güneş

**SEEFORT**

**Saturday 10.5.2024. - Day 3**

**Hall 1 - FOOT & ANKLE**

Time	Lecture	Session	Leader	Lecturer
9:00–9:15	Arthroscopic Treatment of Ankle Osteoarthritis- Where we are in 2025	Ankle Osteoarthritis	Beat Hintermann	Colta R.
9:15–9:30	The role of osteotomies in the treatment of ankle osteoarthritis			Štalc J.
9:30–10:00	Total Ankle Replacement- Where Are We Now?			Beat Hintermann
10:00–10:15	Ankle Osteoarthritis- When Fusion Is a Better Option			Štalc J.
10:15–10:30	Discussion			
10:30–10:45	Coffee break			
10:45–11:00	Arthroscopic Ankle Stabilization- Our Experience	Ankle Instability	Dimnjaković D.	Dimnjaković D.
11:00–11:15	Open Alternatives to Arthroscopic Ankle Stabilization			Klobučar H.
11:15–11:45	The complex instability – what to do more?			Ruiz R.
11:45–11:55	Report From The "Ankle Ligament Pathology" ESSKA Certification Programme			Dimnjaković D.
11:55–12:05	Report From EFAS Fellowship			Serdar J.
12:05–12:30	Discussion			
12:30–13:15	Lunch/Workshop
